1. What are softskills?

1 / 1 point

- Skills that you would not feel very competent at.
- Coding skills that improve presentation of code.
- They relate to the way you conduct yourself social.

Correct

That's correct! When an interview talks about your softskills they are interested to know how you will function in a team.

2. When are you most likely to be asked about your Softskills?

1 / 1 point

- During a technical interview.
- During a quiz.
- During a screening call.

Correct

That's correct! The screening call is designed to identify whether a candidate is a good fit for a company's culture. It is done before any competency is established.

3. What is the purpose of the online coding assignment?

1 / 1 point

- It is to get you to solve some company problem
- It is designed to give you an opportunity to show what you can produce in an unpressurized environment that mimics potential job activities you will be asked to undertake
- To help you get into the mindset of working for this company before you start

Correct

That's correct! The role of the coding assignment is to demonstrate your thought process and your hands-on coding ability.

4. Pseudocode is a structured way to engage with code.

0 / 1 point

- True
- False

Incorrect

Not quite. Pseudocode has no formal structure and will often reflect the preferred language of a programmer.

5. When should you test your code?

1 / 1 point

- Continuously as the project progress.
- At the end.
- Whenever the application crashes to identify what the issue is.

Correct

That's correct. Ideally, the code should be tested as you go.
